Video Playback Recommendations

To give you the best viewing experience, YouTube changes the quality of your video stream based on your viewing conditions. Here are the steps to manually change the video quality on a computer or tablet:

Computer:

1. In the video player, select **Settings**. ⚙️
2. Click **Quality**. 📶
3. Select your preferred video quality.

Tablet:

1. In the video player, select **More**. ⋮
2. Tap **Quality**. ⚙️
3. Select your preferred video quality.
